Heavy Industrial (I-H) land starting at \$115,000/acre

Phase 1 available late 2005

**Contact:** Real Estate and Land Development at  
(403)320-4000

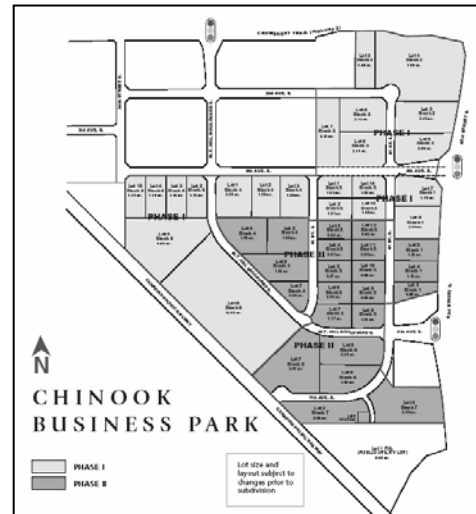

## Chinook Business Park

**Developer:** Remington Development Corporation  
**Location:** Crowsnest Trail and 43<sup>rd</sup> Street South  
**Size:** 24 Acres still available

Highway Commercial (C-H) land available immediately  
Lots ranging from 1.00 acre and up  
Starting at \$217,800/acre

**Contact:** Cody Clayton at (403)255-7003

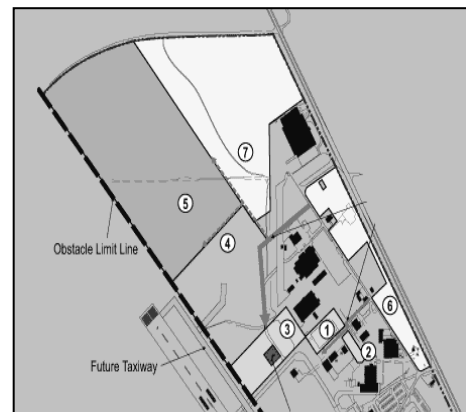

## Lethbridge County Airport

**Developer:** County of Lethbridge  
**Location:** 5 km south of city on Mayor Magrath Dr  
**Size:** 37 Acres of Industrial Land Available for Lease

Lease rates starting at: \$1.19 per square metre annually

**Contact:** Scott Butchart at (403) 329-4466

# The 2005 Economic Development Lethbridge Manufacturing Survey

## *Made in Lethbridge Manufacturing Directory*

---

Introduction	1
Categorical Index	2
Directory of Manufacturers	3-9

---

**Made in Lethbridge** was compiled by Economic Development Lethbridge to provide information about manufacturers and manufacturing activity in the Lethbridge area. The 2005 edition of the Made in Lethbridge directory is produced using information gathered annually by Economic Development Lethbridge through a mail and phone survey. In July of 2005, 105 manufacturing firms were surveyed to determine the projected expansion of their operations for the year. These manufacturers ranged from large companies exporting to world markets, to small family operations selling their products locally.

Manufacturers were asked about their plans to expand production, to develop new products, to increase employee numbers, and to develop new export markets. The following highlights of this year's survey shows the City's manufacturing sector to be vibrant and growing.

- The manufacturing industry in Lethbridge generates more than \$1.2 billion in annual sales, and has a total payroll of over \$185 million.
- Manufacturing firms in Lethbridge occupy more than 4.1 million square feet of floor space.
- The total number of employees in the manufacturing sector has increased by 25%, from 3,785 in 1997, the first year of the survey, to 4,747 in 2004.
- 28% of manufacturing companies are planning to increase the number of employees in their organization by the end of this year.
- 45% are planning on expanding their production and another 40% have recently expanded their production.
  - 25% are planning on producing a new product during 2005.
- 60% are exporting their products to other countries. This figure has been relatively consistent over the years of the survey.
  - 9 of the 105 manufacturers are planning on exporting to new countries this year.

This directory encourages economic development in Lethbridge by providing information to new businesses interested in locating their company in Lethbridge. It provides an opportunity for Lethbridge manufacturers to interact with other manufacturers and to assist businesses in the communication/partnership process.

Economic Development Lethbridge provides assistance and guidance to companies requiring site location and business information and by offering a coordinating and advocacy role for projects. Confidentiality of inquiries is assured.
